Work Experience

Automation and Full Stack Developer – Full Time (Remote) Night shift

Delegate CX | May 05, 2025 – Present
- Legally employed under DCX PH Inc. (the Philippine arm of Delegate CX - USA)
- Local base: A. Gueco Street, Pulung Maragul, Angeles City, Pampanga 2009, Philippines.

Companies Overview:
Delegate CX (A BPO Company in the USA) – My employer
Brand Fuel (A Promotional Company in the USA) – Our client

My Impact - I used my software development skills to automate manual processes and eliminate inefficient workflows by developing custom software solutions. These tools streamlined daily operations, improved accuracy, and significantly increased overall efficiency and sales potential by replacing third-party tools with an in-house system I built, eliminating the client's SaaS subscription costs.

Full Stack Developer – Full Time (On-site) Day shift

UERM Medical Center | Apr 11, 2023 – Apr 13, 2025 (2 years and 2 days)
Company Overview (A Hospital and Medical School in the Philippines)

My Impact - I leveraged my skills to implement queuing management systems with real-time functionalities for three hospital departments. I improved the code base and optimized the performance of our hospital system, significantly increasing transaction speed and enabling the hospital to serve more patients per day. Resulting in improved operational efficiency and potential higher revenue.

Full Stack Developer – Full Time (Hybrid 3 days onsite and 2 days remote) Day shift

MedExpress Drugstore | Feb 15, 2021 – Apr 05, 2023 (2 years, 1 month, and 21 days)
Company Overview (A Pharmaceutical Retail Company in the Philippines)

My Impact - I implemented real-time features across our applications, fixed bugs in the code base, and optimized performance. Resulting in instant order processing for branch stores and the call center, and contributing to potential higher sales.

Education

Bachelor of Science in Computer Science (BSCS)
The University of Manila | 2014 – 2018

Additional Information

- Passionate about coding and new technologies.
- Strong problem-solving skills and ability to work independently or in a team.
- Extensive work experienced in software development life cycle (SDLC), debugging, and performance optimization.
