Career Objective

A highly motivated and passionate Full Stack Software Developer / Programmer with over 5 years of experience in designing, developing, and maintaining web, desktop, and mobile applications using a wide range of modern technologies. Adept at delivering innovative solutions, improving system performance, and ensuring seamless user experiences. Currently seeking a challenging role where I can leverage my technical expertise, analytical mindset, and passion for technology to contribute to the growth and success of a forward-thinking organization.

Technical Skills

Programming Languages: C#, VB.NET, JavaScript, TypeScript, Dart

Web Development: HTML 5, CSS3, Bootstrap, jQuery, JavaScript, ADO.NET, ASP.NET MVC (.NET Framework), ASP.NET Core MVC, SignalR, ASP.NET Web API (.NET Framework - REST API), ASP.NET Core Web API (REST API), ASP.NET Web Forms (.NET Framework), ASP.NET Web Service (.NET Framework – SOAP API), Entity Framework (.NET Framework), Entity Framework Core, Vue.JS (with Vuex), React.JS (with Redux), Express.JS (REST API), Node.JS, Redis, Mongoose

Mobile Development: Flutter

Desktop Development: Windows Forms, Windows Presentation Foundation, Console, Windows Service

Databases: MS SQL Server, MySQL, MongoDB, SQLite

Tools & Platforms: Visual Studio, VS Code, Android Studio, Git, GitHub, GitHub Desktop, Unit Testing, Internet Information Services, SAP Crystal Reports, Postman, Windows 10 and Windows 11, Microsoft Azure, Amazon Web Services (AWS)

Work Experience

Home Based Junior Developer (Remote)
Delegate CX | May 05, 2025 – Present
- Legally employed under DCX PH Inc. (the Philippine arm of Delegate CX - USA)
- Local base: A. Gueco Street, Pulung Maragul, Angeles City, Pampanga 2009, Philippines.

Delegate CX (BPO Company) – My employer
Brand Fuel (Promotional Company) – Our client

Achievements:
- Independently develops solutions by studying information needs, conferring with users, creates functional and balanced solutions for business problems by utilizing clean code and appropriate design patterns.
- Strong communication skills to ask questions, seek requirements, and convey knowledge on technical and complex topics.
- Determines operational feasibility by evaluating analyses, problem definition, requirements, solution development, and integrating existing solutions.
- Clears understanding of system architecture and software design principles/patterns with an emphasis on maximizing usability.
- Troubleshoots by collecting, analyzing, and summarizing development and service issues.
- Helps the business to implement technology improvements and solutions cost-effectively.
- Accomplishes engineering and organizational mission by completing related goals as needed.
- Demonstrates strong integrity, dependability, attention to detail, and an interest in learning.

Computer Programmer (On-site)
UERM Medical Center | Apr 11, 2023 – Apr 13, 2025 (2 years and 2 days)
Company Overview (A Hospital and Medical School in the Philippines)

Achievements:
- Managed multiple projects simultaneously with high attention to detail.
- Worked effectively under pressure in tight deadlines.
- Demonstrated strong interpersonal and communication skills.
- Designed and developed full-stack web applications using modern frameworks like Vue.js (with Quasar and Vuex) on the frontend and Express.js with Node.js and Redis on the backend.
- Built new desktop applications from scratch using C#, WinForms, and WPF for internal departments such as inventory and patient management.
- Maintained and improved legacy systems, including integration with SAP Crystal Reports for advanced data reporting.
- Developed mobile applications using Flutter and Dart for kiosk browsing and queueing systems.
- Created multiple queuing management systems across departments (Billing, OPD, Industrial Medicine) that include mobile, web, and desktop applications.
- Built RESTful APIs using ASP.NET MVC and Web API for various hospital services.
- Implemented automation tools such as Email Sender (Windows Service) and Updater desktop applications for system updates.

- Integrated hardware components such as HID Global OMNIKEY card readers in desktop apps using WPF and XAML.

IT Programmer Associate (Hybrid 3 days onsite and 2 days remote)
MedExpress Drugstore | Feb 15, 2020 – Apr 05, 2023 (3 years, 1 month, and 21 days)
Company Overview (A Pharmaceutical Retail Company in the Philippines)

Achievements:
- Demonstrated strong interpersonal and communication skills.
- Maintained a professional and friendly attitude with clear and confident speech.
- Effectively handled customer calls and internal communications across various platforms.
- Quickly adapted to changes and responded with a strong sense of urgency.
- Practiced excellent time management and organizational skills.
- Remained productive and focused while working under pressure.
- Developed and maintained enterprise-level web applications using ASP.NET MVC, C#, JavaScript, jQuery, Bootstrap, HTML5, CSS3, LINQ, ADO.NET, SignalR, and MS SQL Server.
- Implemented and enhanced features in legacy applications and built new applications from scratch.
- Created and consumed RESTful APIs using ASP.NET Web API for seamless system integration across platforms.
- Developed desktop applications (WinForms and Console applications) for internal operations, real-time communication, and file processing.
- Designed and generated reports using SAP Crystal Reports.
- Built and maintained reusable class libraries using VB.NET to support business processes such as sales invoicing and slip printing.
- Deployed and managed web applications on Internet Information Services (IIS).
- Collaborated with development teams using Visual Studio and version control via GitHub.
- Performed maintenance tasks including cleaning POS thermal/dot matrix printers and system units at the assigned branch of MedExpress Drugstore.

Education
Bachelor of Science in Computer Science (BSCS)
The University of Manila | 2014 – 2018

Certification
https://www.linkedin.com/in/joshua-magoliman-3177a4165/details/certifications/

Additional Information
- Passionate about coding and new technologies.
- Strong problem-solving skills and ability to work independently or in a team.
- Extensive work experienced in software development life cycle (SDLC), debugging, and performance optimization.
